Email: ayushkamboj9690@gmail.com
Mobile: +91 9690259628

SKILLS

Languages: C, C++, JavaScript, Java, PHP, MySQL, TypeScript
Frameworks: Html, CSS, Tailwind CSS, React.js, Node.js, Express.js
Tools/Platforms: Git/GitHub, Figma, Canva, MongoDB, Linux,
Soft Skills: Problem-Solving, Team Work, Communication, Adaptability

PROJECTS

Job Tracker Application: | GitHub — Jul'25

- Developed a responsive web platform for creating and managing job roles with secure user authentication.
- Implemented real-time job tracking with interactive data visualization using Chart.js.
- Designed a to-do list–style interface to organize job statuses across multiple stages.
- Enabled users to add, update, and monitor progress throughout the job search lifecycle.
- Optimized backend performance and scalability through efficient PHP and database handling.
- Achieved 40% faster load times and increased user participation through optimized UI and efficient data processing.

Tech Stack: HTML5, CSS3, JavaScript, Tailwind CSS, PHP, MySQL, Chart.js, Font Awesome.

Survey Portal:| GitHub — May'25

- Built a web-based survey platform enabling survey creation, administration, and user participation.
- Implemented dynamic form handling, secure user authentication, and protected data processing using PHP and JavaScript.
- Created a responsive and intuitive user interface to ensure smooth usability across multiple devices.
- Managed database-driven storage and retrieval of survey structures and participant responses.
- Gained hands-on experience with the complete application lifecycle, including frontend development, backend logic, and testing.

Tech Stack: HTML, CSS, JavaScript, TypeScript, PHP, MySQL, Tailwind CSS.

TRAINING

Mern Stack Development| CipherSchool — Jun'25 – Jul'25

- Completed intensive hands-on training in full-stack web development using the MERN stack.
- Developed complete web applications with end-to-end CRUD operations across frontend and backend.
- Built responsive and interactive user interfaces using React.js and modern JavaScript (ES6+).
- Designed and implemented RESTful backend services using Node.js and Express.js.
- Worked with MongoDB for schema design and database management.
- Implemented secure authentication and authorization workflows using JSON Web Tokens (JWT).

CERTIFICATES

Full Stack Development- CipherSchool	Aug'25
TCP/IP and Advanced Topics - Coursera	May'25
Introduction to Hardware and Operating Systems – IBM	May'25
Data Structures and Algorithm - CipherSchool	Dec'24
C++ Object Oriented Programming - NeoColab	Dec'24
Responsive Web Design - FreeCodeCamp	Nov'23

ACHIEVEMENTS

Consistency and Excellence in Competitive Programming Practice — Jul'25

Earned "100 Days Badge 2025" by solving coding problems consistently for 100+ days in 2025, Completing 100+ algorithmic and data structure challenges.

Strong Performance and Collaboration in a Competitive Hackathon Environment — Apr'24

Achieved 5th position in 'Build Thon Hackathon' organized by Apna College LPU by collaborating with team design and implement an innovative solution.

EDUCATION

Lovely Professional University — Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.77** — Aug'23 - Present

Dellmond International School — Fatehpur, Uttar Pradesh
Intermediate; **Percentage: 91.8%** — Aug'21 – Jul'23

Roorkee Sr. Sec. Public School — Roorkee, Uttarakhand
Matriculation; **Percentage: 69%** — Apr'20 – Jul'21
